- 

## PROFESSIONAL EXPERIENCE

### Capgemini Sogeti, *Manager Consultant*

January 2020 – Present

- Transition E-Commerce site from Salesforce to Next.js/React apps such as [Delivery Tracker](#) and [Mattress Matcher](#)
- Revamp site performance metrics covering best practices, SEO and WCAG AA accessibility
- Collaborate with Project Managers and UX team to deliver accessible, user-centric solutions
- Spearhead concurrent clients while mentoring 5 Sogeti team members on consulting practices
- Integrate unit testing using Jest/Cypress that meet optimal code coverage standards

### Capgemini Sogeti, *Senior Consultant*

January 2019 – December 2020

- Lead developer for 12+ .NET Accounting apps that manage client's fiscal budget & pilot expenses.
- Trained and mentored 5 developers on technologies like C#, .NET MVC, SQL, and Web Services
- Prototype and develop mobile-first solutions for pilot facing applications using .NET Core, AngularJS, & Bootstrap 4.
- Architect technical documentation in Azure DevOps, and leveraged TFS API with PowerShell to automate dev environment setup

### Capgemini Sogeti, *Consultant*

April 2017 – December 2018

- Migrate legacy VBA applications to .NET Framework MVC, and Web API services
- Facilitate training & feedback workshops with stakeholders to onboard with new Accounting apps.
- Architected in-house .NET WPF's and libraries that saved over \$20K of outsourcing costs
- Research and implement automation strategies leveraging Azure DevOps and CICD.

### Ayoka Systems, *Lead Web Application Developer*

February 2016 – April 2017

- Lead development teams of 1-3 interns on new and inherited .NET MVC Web apps
- Architect .NET MVC web apps from the ground up while working closely with stakeholders
- Groom, plan, and code review technical assignments submitted by development teams

### Ayoka Systems, *Web Application Developer Intern*

June 2015 – January 2016

- Collaborate with senior developers to deliver web app solutions using C#, .NET MVC 5, and SQL
  - Learn new technologies such as MongoDB and Django REST framework to meet critical deadlines
  - Provides continuous code delivery using Git Repositories with a team of 5 developers
  - Awarded Top Developer recognition (Dec 2016) out of 20 developers for outstanding performance
- 

## EDUCATION

University of Texas at Arlington, *Bachelor of Science, Information Systems*

Spring 2014 – Fall 2015

Texas Tech University, *N/A, Electrical & Comp Science Engineering*

Fall 2011 – Fall 2013
